### **HEALTH OFFICER'S REPORT**

The annual report for the town of Lebanon for the past year shows there was a considerable number of minor infectious diseases. New school regulations have been adopted and I hope with the co-operation of the parents to decrease the number of communicable diseases.

Monthly reports of water analysis show the water from the Lebanon supply good bacterially while the West Lebanon supply shows an excess amount of vegetable matter.

H. B. Hazen, M. D., Health Officer

## REPORT OF MILK INSPECTION

The same method being carried out as outlined last year with the same satisfactory results, the following being the report from the state chemist on last samples taken:

The above is representative of a very satisfactory lot of milk, none of these running below the statutory minimum of composition and with two exceptions all giving evidence of being produced under cleanly conditions signed by chief and state chemist, Charles D. Howard.

W. B. MOWERS, Inspector

# REPORT OF SUPERINTENDENT OF SCHOOLS

March 1, 1923

To the Citizens of Lebanon:

At the request of the Board of Education, I am combining the reports, which are usually presented at this time in a school report, into a brief presentation of a few statistics in regard to our schools, together with a brief statement of some of the activities which are taking place at the present time.

In administration, the combining of the two districts has made possible a closer correlation of the work of the various schools, and has greatly simplified the clerical work of administration. As a rule, I have tried to continue the progressive policies started by Supt. Sawyer.

## Teachers

Teachers of Lebanon are, on the whole, well trained, experienced, efficient and progressive, and are doing a splendid work. I believe that a slight increase in the amount paid our rural school teachers will enable us to secure teachers of some Normal training and some experience for these difficult and very important schools. Without question the greatest need of good teaching today lies in these rural one-room schools. Salaries of our elementary and high school teachers are about the same as paid elsewhere in the state in communities of the size of Lebanon. We

cannot, however, afford to lose our best teachers to other communities when a matter of \$100 or so would keep them here. We do not care, no matter how great the honor may be, to have Lebanon considered a training ground for the teachers of other communities. The professional spirit of our teachers is vouched for by the fact that thirty are now enrolled in an extension course in education conducted by Prof. A. D. Wright of Dartmouth College.

---

Junior High School under the direction of Mr. Kendall has reached a stage of development and organization surpassed by few, if any, in the state. According to the official report of the state inspector, who visited us recently, we have not a single poor teacher in either Junior or Senior High Schools, and the impression of our schools received by him was very favorable.

In the Senior High School, few changes have been made. The Mechanics Arts Curriculum has been strengthened by replacing one of the four shop periods, previously given, by a related subject, such as mathematics, chemistry, etc.

In spite of many reports to the contrary, Lebanon High School does prepare for college. We cannot, however, guarantee admission to a particular college, unless advised by the pupil of his intention to enter college (not later than the end of his Freshman year). Our better pupils have little trouble in getting on in college. This is shown to be true by a study now being made of some twenty-eight L. H. S. graduates, who are now in normal school and college. I believe that few High Schools have better records. Our poorer students we *cannot* and do not recommend for college. Lebanon High School is given all the privileges of certification granted to any school. We are approved by the State Dept. of Education and by the New England College Entrance Board.

### *Medical Inspection*

Medical Inspection of all pupils of the district has been continued this year. Results in this important part of activities were very satisfactory and expenses for this work are to my mind fully justified. Monthly reports of the

school nurse, Miss Parmentier, published in the Free Press, give very interesting statistics.

### *Building*

Many repairs of a minor nature have been made on several of our schools.

It seems almost unnecessary to call your attention again to the crowded condition of our High School. More class rooms, laboratory space, cloak rooms, toilet facilities, a gymnasium, an auditorium and a library, are among the essential needs at the present time. Plans for a new building will be presented at the school meeting. I do not see how Lebanon High School can maintain its present high rating unless something be done to provide proper facilities.

I wish to express my appreciation of the untiring efforts and fine spirit of co-operation on the part of all teachers, and of the hearty support of the members of the Board of Education who have been of great assistance to me in this my first year of supervision.

Respectfully submitted,

CALEB H. NILES, Supt.
